Kode operator: "heritable vs predictable vs useful" (maize, 10-fold)
(a) Operator heritability
heritability $h^2(U)$
operator rank (r)
(b) Operator SNP-predictability
GBLUP predictability ext(U)
operator rank (r)
(c) End-to-end trajectory prediction
end-to-end PCC
operator rank (r)
(d) Heritability does not imply value
end-to-end PCC
operator heritability $h^2(U)$
full (grm+t1)
grm-only
tp1-only
const (shared op)
